

Covid-19: Staying Safe at School

Control the virus

Catch it

Germs can be spread easily – carry disposable tissues and use them if you need to cough or sneeze

Bin it

Germs can live for several hours on tissues so dispose of them as soon as possible

Kill it

Hands can transfer germs to every surface that you touch – wash them as soon as you can after coughing or sneezing and disposing of your tissue

Keep up-to-date with and continue to follow Government guidance.
